CAREER OBJECTIVE

Results-driven Software Developer with expertise in Java, Full-Stack Development, and Web Technologies. Experienced in building scalable applications. Skilled in REST API integration, responsive UI/UX, agile practices, SDLC, and database management. Proficient in documentation and reporting using MS Word, Excel, and related productivity tools. Committed to delivering optimized and impactful digital solutions.

EDUCATION

Potti Sriramulu Chalavadi Mallikarjunarao College of Engineering & Technology Vijayawada, India
Electronics and Communication Engineering   November 2021 - May 2024
CGPA: 7.28/10.00

TECHNICAL TRAINING

Codegnan Destination | Java Full Stack   Vijayawada, India | January 2025 - June 2025
- Collaborated on web applications using Java, Spring Boot with Thymeleaf, and MySQL.
- Conducted API testing using Postman and integrated third-party APIs, improving reliability and modularity.
- Revamped UI designs using HTML, CSS, and JavaScript, enhancing cross-device responsiveness and increasing user engagement.
- Collaborated with peers in a team environment, applying Agile practices and version control using Git to manage collaborative projects efficiently.

SKILLS

Languages & Frameworks: Java SE, Java EE (JSP, Servlets), Hibernate, Spring MVC, Spring Boot
Web Technologies: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.Js
Databases: MySQL, Oracle SQL
Deployment & Dev Tools: Git, GitHub Pages, Vercel, Netlify, AWS
Productivity Tools: MS Word, Excel, PowerPoint, Google Docs, Google Sheets

PROJECTS / OPEN-SOURCE

Vendora – E-Commerce Platform   *Java, Spring Boot, Hibernate, HTML, Tailwind CSS, REST APIs*
- Developed a full-stack multi-role e-commerce platform supporting Admin, User, and Delivery Agent functionalities.
- Implemented product management, order processing, cart system, checkout flow, and wishlist using Spring Boot and Hibernate.
- Designed a responsive, modern UI with Tailwind CSS and dynamic Thymeleaf rendering for seamless user experience.
- Integrated secure session-based workflows ensuring consistent and accurate order management.

ExamSpark – Quiz Application   *Java, Spring Boot, Hibernate, HTML, CSS, JavaScript, REST APIs*
- Developed an interactive quiz platform supporting dynamic question rendering, timer functionality, and instant result evaluation.
- Implemented secure user authentication and progress tracking to enhance personalized learning experiences.
- Designed a clean, responsive UI ensuring accessibility and smooth performance across devices.

Expense Tracker   *Java, Spring Boot, Hibernate, HTML, CSS, JavaScript, REST APIs, Chart.js*
- Built a responsive web-based Expense Tracker to record, categorize, and manage daily expenses.
- Implemented add, update, and delete functionalities with real-time updates using JavaScript and localStorage.
- Enhanced usability by designing a clean, intuitive interface and providing dynamic expense summaries.

Amazon Clone   *HTML, CSS, JavaScript*
- Developed a fully responsive Amazon Clone with a modern, interactive UI using HTML, CSS, and JavaScript.
- Improved performance and load speed through optimized layouts and reduced reflows.
- Built Amazon-like product, banner, and category sections for an authentic browsing experience.
